I believe an educational leader creates a learning environment based on comprehensive, rigorous standards and high expectations for student achievement and learning

I believe an educational leader is the voice of the school by acting on behalf of the stakeholders to influence policy and decisions based on trends, research and leadership strategies. I believe an educational leader creates an effective learning environment through data collection and continuous monitoring of student performance and instructional strategies and delivery.

My
Values
&
Beliefs

I believe in establishing a climate of collaboration where staff, students and parents engage in shared responsibility with open and honest communication while positively contributing to the learning environment.

I believe an educational leader establishes a learning environment based on a continuous, sustainable school improvement initiative with student achievement and learning at the heart of what we do.

I believe in living the mission in order to achieve our vision.

I believe an educational leader acts with integrity by engaging in decision-making processes that are ethical, fair and centered on student achievement and learning
